In this Generation...
...the world’s antagonism toward Christians, Jews and Israel is escalating.

The Logical Thing...
...it to stand together. There are obstacles, however, that Christians need to understand and overcome which will clear the way for more positive and trusting relationships with the Jewish people and Israel.

You are Invited to Host...
...a special half-day seminar provided by the International Christian Embassy Jerusalem designed to overcome these obstacles and raise up an “Easter generation.”

Seminar Description

The International Christian Embassy Jerusalem will provide one or more speakers for a unique educational program. The half-day seminar may be presented in a morning, afternoon, or evening, or divided into 2-3 segments over the course of several days. Content will focus on the following topics:

- Antisemitism in Church History and its Influence in the Holocaust
- Testimonies of Holocaust Survivors
- What it Took to be a Rescuer — or Righteous Gentile
- Antisemitism in our Generation
- How to Develop a New Relationship with the Jewish People Today
- Understanding the Importance of Israel

In this seminar, we will focus on barriers to positive relationships between Jews and Christians from the time of Jesus of Nazareth until now. To do so, our examination will be divided into three pillars of time—before, during and after The Holocaust. Once we understand the historic and present-day forms or antisemitism, we will roll up our sleeves to explore ways we can make a difference in our generation.

Fast-paced, moving and informative, this special event will feature illustrated talks, film, narratives, prayer, discussion and action steps. Those who attend will not only understand the growing threat of modern antisemitism, but will be equipped with a better understanding of the past so that today and in the future, they will stand with the Jewish people and Israel with strength, intelligence and love.
