ICEJ USA PRESENTS

MILLENNIALS IMPACTING ISRAEL

A SEMINAR ABOUT THE IMPORTANCE OF FUTURE SUPPORT FOR ISRAEL AMONG THE MILLENNIAL GENERATION AND WHAT LIES BEHIND THE TURMOIL THAT KEEPS WORLD ATTENTION RIVETED ON THE MIDDLE EAST

YOUNG ADULTS SEMINAR
FEATURING GUEST SPEAKERS FROM ICEJ USA

As young adults face an ever-changing culture and the attack on Judeo-Christian values at college campuses, ICEJ USA is connecting the younger generation with life-changing seminars and outreach tours to Israel. At the Millennials Impacting Israel Seminar, we help young adults go beyond political narratives and the lens of western media regarding Israel and the Middle East. The attention of the earth is again focused on the region where God began His story of redemption. During each seminar we share with young adults 3 things to help them understand the importance of raising up the Millennial generation to bless Israel. First, understanding the modern trends of how our 80 million American Millennials view Israel. Second, how to respond to the rise of global anti-Semitism in our generation. Third, recognizing how the Bible can be central to what we think about and how we engage in blessing Israel. The controversy around Jerusalem is no longer a regional conflict. It’s a global conflict and it will require this generation to answer serious questions about Israel, Judeo-Christian beliefs, and the nations.
